Unit 1

2D Design: Elements and Principles of Art

Summary and Rationale

Art I is designed for students who want to develop their critical and creative thinking skills as well as broaden their understanding and appreciation of the visual arts. This course will increase students' proficiency in art techniques and processes through two and three-dimensional work. This course requires students to scaffold learned skills from the middle school art sequence. Multiple uses and combinations of diverse art mediums will be explored to aid in the development of personal and visual power.

Interdisciplinary connections and careers will be explored. Students will build and develop fine motor skills. Areas of concentration include inquiry and eye training technique, comprehensive understanding of personal and cultural metaphors, symbolism and allegory, abstract thinking, art production, art history, art criticism, aesthetics, presentation, exhibition, and critiques.

By exploring a variety of compositional devices, media, and techniques, students will expand their knowledge of art-making, as well as art history and art criticism.

The ability to understand and apply the concepts of successful composition in a work of art is essential for emerging artists. The quality of an artwork's composition can impact the effectiveness of the overall artwork, despite skill level or content. Students must engage in practice and repetition to develop the skills needed to create successful compositions in their artwork.

This unit will develop an understanding of the role of composition in art. Through the study of art history and criticism, students will be able to identify strong and weak compositions when looking at artwork from a variety of sources, time periods, and cultures. Students will learn to apply the skills and techniques for creating a strong composition in specific lessons to other art making activities.

In addition to the study of composition, students will learn to respond to and connect to artwork from across the globe, time periods, and cultures. A variety of thinking routines will be utilized when looking at and responding to art works.

Through the development of a sketchbook, students will also be exposed to and practice using a variety of media, tools, and techniques to prepare them for deeper explorations of different themes, subjects, media, and meanings throughout this course.

Interdisciplinary Connections	
English Language Arts (2016/CCSS)	
RI.9-10.7	Analyze various perspectives as presented in different mediums (e.g., a person’s life story in both print and multimedia), determining which details are emphasized in each account.
W.9-10.4	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
CCSS.ELA-LITERACY.SL.9-10.1	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9-10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.
CCSS.ELA-LITERACY.SL.9-10.5	Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.
CCSS.ELA-LITERACY.SL.9-10.6	Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate.
Career Readiness, Life Literacies, and Key Skills (2020)	
9.4.12.CI.1	Demonstrate the ability to reflect, analyze, and use creative skills and ideas (e.g., 1.1.12prof.CR3a).
9.4.12.CI.2	Identify career pathways that highlight personal talents, skills, and abilities (e.g., 1.4.12prof.CR2b, 2.2.12.LF.8).
9.4.12.TL.1	Assess digital tools based on features such as accessibility options, capacities, and utility for accomplishing a specified task (e.g., W.11-12.6.).
Computer Science and Design Thinking (2020)	
8.2.12.ITH.1	8.2.12.ITH: Interaction of Technology and Humans: Analyze a product to determine the impact that economic, political, social, and/or cultural factors have had on its design, including its design constraints.
8.2.12.ITH.3	8.2.12.ITH: Interaction of Technology and Humans: Analyze the impact that globalization, social media, and access to open source technologies has had on innovation and on a society’s economy, politics, and culture.
8.2.12.NT.1	8.2.12.NT: Nature of Technology: Explain how different groups can contribute to the overall design of a product.
8.2.12.NT.2	8.2.12.NT: Nature of Technology: Redesign an existing product to improve form or function.

Technology (2014)	
8.1.12.A.1	Create a personal digital portfolio which reflects personal and academic interests, achievements, and career aspirations by using a variety of digital tools and resources.

- Refinement of artistic work is an iterative process that takes time, discipline, self-confidence, and collaboration.
- The perception, analysis, and interpretation of artistic works uniquely influence one's thoughts and feelings.
- Understanding an artist's intent helps the viewer relate their own thoughts and feelings to artistic works.

- Apply and control the medium of choice for production.
- Identify aesthetics through the exploration and evaluation of art in its historical context.
- Examine the various ways in which people communicate through art.
- Engage in critique of a piece of artwork using written and verbal communication.
- Justify the decisions made during the artwork creation process and after artwork finalization.
- Respond to artworks by peers and by artists across time/culture to develop communication and understanding.
- Examine artwork by a variety of artists from diverse racial and cultural backgrounds.
- Understand the importance of self-reflection and how it helps us improve our observation, understanding, and communication with others in our community.
- Engage in meaningful identity processes by using art to convey their personal identity.

Modifications

Special Education/IEP/504 - Modifications and accommodations must be aligned to the stated plan and uphold expectations of the plan lawfully. Every student requires a different set of accommodations based upon need. Examples specific to visual arts practice include, but are not limited to:

- Follow individual IEP/504 plans for specific modifications.
- Preferential seating
- Extended/Additional time for assessments
- Behavior management support
- Assignments/resources in electronic and physical format
- Break down assignments with oral directions, written directions, and visuals.
- Provide frequent reminders to stay on task and reinforce on-task behavior
- Work on organizational skills
- Provide visual supports
- Partnering/Grouping of students
- Re-teaching and review
- Multi-media approach to accommodate various learning styles
- Decrease/Modify number of project requirements
- Teacher/Aide/Para assistance
- Demonstrations of techniques on an individual level
- Show slide presentations to encourage exploration of project ideas

ELL - Teachers identify the modifications that they will use in the unit as related to the needs of their student population. Examples specific to visual arts practice include, but are not limited to:

- Allow the use of Google Translate where appropriate.
- Provide alternate ways for the student to respond (verbal/pictographic answers instead of written)
- Substitute a hands-on activity or use of different media in projects for a written activity
- Prepare and distribute advance notes
- Provide model sentence frames and sentence starters for both oral responses and written responses
- Provide additional time to complete assessments and assignments
- Model and use gestures to aid in understanding
- Model tasks by giving one or two examples before releasing students to work independently
- Present instructions both verbally and visually

- Simplify written and verbal instructions
- Speak clearly and naturally, and try to enunciate words, especially their ending sounds.
- Provide Visual, Graphic, Interactive, and/or Sensory Supports
- Simplify the language, format, and directions of the assessment
- Allow for alternate seating for proximity to peer helper or teacher as necessary
- When showing videos, use Closed Captioning.
- Support use of student's primary language by translating key words in directions, or key vocabulary terms or giving students opportunities to communicate in their primary language (written or orally)

Gifted and Talented/Enrichment - Utilize differentiation in the areas of acceleration, enrichment, and grouping. Examples specific to visual arts practice include, but are not limited to:

- Complex, in-depth research assignments
- Independent study where applicable
- Provide a variety of individualized work centers or student choice
- Lead demonstrations for class
- Create additional project(s) in a different medium, exploring a different technique, style, or subject.
- Individual presentation
- Multiple mediums in project

Career Readiness, Life Literacies, and Key Skills NJSLs (June 2020)

Unit 2

2D Design: Drawing & Painting

Summary and Rationale

This unit will continue to explore the compositional concepts taught in the previous unit, with a focus on drawing and painting media. Students will explore various mark-making techniques, shading, modeling, the illusion of space in a composition, drawing from direct observation, gridding, atmospheric perspective, and linear perspective.

After studying composition and the elements of art and principles of design, students will apply that knowledge to creating dynamic still-lives, portraits, self-portraits, and landscape drawings and paintings. The materials explored in this unit will include pencil/graphite, charcoal pencils, pen and ink, marker, colored pencils, watercolor paint, and acrylic paint. Color theory and color mixing techniques will also be developed as students explore painting.

Students will practice drawing from direct observation and will learn techniques that can be applied to future units and lessons. Observational drawing will include blind-contour studies, breaking complex objects into simple shapes, understanding positive and negative space, gesture drawing, and using value to create the illusion of form and depth. Gridding methods, transfer techniques, and linear perspective will also be utilized.

Students will continue to explore art history and art criticism by studying art works that are relevant to the subject, theme, or media of the current project.

In addition to the study of composition, students will learn to respond to and connect to artwork from across the globe, time periods, and cultures. A variety of thinking routines will be utilized when looking at and responding to art works.

Through the continued development of a sketchbook, students will also be exposed to and practice using a variety of media, tools, and techniques to prepare them for deeper explorations of different themes, subjects, media, and meanings throughout this course.

Objectives (SLO)	
Students will know:	Students will be able to:
<ul style="list-style-type: none"> • The elements and principles of art and design, as they are applied to the specific media or subject being studied. • The elements of line, value, form, size, shape, and color; as they refer to composition. • The principles of balance, focal point, harmony, rhythm, contrast, and movement; as they refer to composition. • Creating value scales is an important form of practice that can increase an artist's technical proficiency with a new medium. • Linear perspective is used to create the illusion of three dimensionality on a two-dimensional surface • Critique as an important aspect to reflection on the art making process, content, and finished project. • Artists use sketchbooks to record ideas, practice techniques, study subjects, experiment, and respond to artwork. • With a growth mindset, failure is an important part of success. • Innovative ideas or innovation can lead to career opportunities. • One's feelings, thoughts, personal traits, strengths and challenges influence the creative process. • Refinement of artistic work is an iterative process that takes time, discipline, self-confidence, and collaboration. • The perception, analysis, and interpretation of artistic works uniquely influence one's thoughts and feelings. • Understanding an artist's intent helps the viewer relate their own thoughts and feelings to artistic works. 	<ul style="list-style-type: none"> • Use multiple approaches to begin creative endeavors. • Demonstrate an understanding of the elements and principles of art as it applies to design and the creative process. • Create works of art which demonstrate a variety of compositional techniques. • Define, discuss, and demonstrate various types of drawing methods. • Define, discuss and utilize positive and negative space in a composition. • Create and utilize value scales using the chosen media/technique. • Define, discuss, and utilize various mark making and value techniques, including: stipple, hatch, cross-hatch, scumble, blending, and layering. • Create works of art utilizing one- and two-point perspective techniques to create the illusion of 3D space on a 2D surface. • Evaluate, analyze, and interpret works of art from a variety of time periods and cultures, using their own thoughts and feelings. • Identify and explain the success of the elements and principles of art and design within a composition. • Define how the elements of art are used to create the principles of design. • Define how the principles combine to create an aesthetic placement of ideas that will produce a dynamic design. • Recognize, select, use, and care for the appropriate tools and techniques for production.

- Drawing from observation takes patience and practice.
- Real-life objects are not outlined and lines are an abstraction. The contrast in value is what creates the illusion of forms on a 2D surface.
- Drawing negative space properly helps you to position all of the compositional elements in your art.

- Apply and control the medium of choice for production.
- Identify aesthetics through the exploration and evaluation of art in its historical context.
- Examine the various ways in which people communicate through art.
- Engage in critique of a piece of artwork using written and verbal communication.
- Justify the decisions made during the artwork creation process and after artwork finalization.
- Respond to artworks by peers and by artists across time/culture to develop communication and understanding.
- Examine artwork by a variety of artists from diverse racial and cultural backgrounds.
- Understand the importance of self-reflection and how it helps us improve our observation, understanding, and communication with others in our community.
- Engage in meaningful identity processes by using art to convey their personal identity.

Modifications

Special Education/IEP/504 - Modifications and accommodations must be aligned to the stated plan and uphold expectations of the plan lawfully. Every student requires a different set of accommodations based upon need. Examples specific to visual arts practice include, but are not limited to:

- Follow individual IEP/504 plans for specific modifications.
- Preferential seating
- Extended/Additional time for assessments
- Behavior management support
- Assignments/resources in electronic and physical format
- Break down assignments with oral directions, written directions, and visuals.
- Provide frequent reminders to stay on task and reinforce on-task behavior
- Work on organizational skills
- Provide visual supports
- Partnering/Grouping of students
- Re-teaching and review
- Multi-media approach to accommodate various learning styles
- Decrease/Modify number of project requirements
- Teacher/Aide/Para assistance
- Demonstrations of techniques on an individual level
- Show slide presentations to encourage exploration of project ideas

ELL - Teachers identify the modifications that they will use in the unit as related to the needs of their student population. Examples specific to visual arts practice include, but are not limited to:

- Allow the use of Google Translate where appropriate.
- Provide alternate ways for the student to respond (verbal/pictographic answers instead of written)
- Substitute a hands-on activity or use of different media in projects for a written activity
- Prepare and distribute advance notes
- Provide model sentence frames and sentence starters for both oral responses and written responses
- Provide additional time to complete assessments and assignments
- Model and use gestures to aid in understanding
- Model tasks by giving one or two examples before releasing students to work independently
- Present instructions both verbally and visually
- Simplify written and verbal instructions
- Speak clearly and naturally, and try to enunciate words, especially their ending sounds.
- Provide Visual, Graphic, Interactive, and/or Sensory Supports
- Simplify the language, format, and directions of the assessment
- Allow for alternate seating for proximity to peer helper or teacher as necessary
- When showing videos, use Closed Captioning.
- Support use of student's primary language by translating key words in directions, or key vocabulary terms or giving students opportunities to communicate in their primary language (written or orally)

Gifted and Talented/Enrichment - Utilize differentiation in the areas of acceleration, enrichment, and grouping. Examples specific to visual arts practice include, but are not limited to:

- Complex, in-depth research assignments
- Independent study where applicable
- Provide a variety of individualized work centers or student choice

- Lead demonstrations for class
- Create additional project(s) in a different medium, exploring a different technique, style, or subject.
- Individual presentation
- Multiple mediums in project

Career Readiness, Life Literacies, and Key Skills NJSLs (June 2020)

Unit 3

2D Design: Painting

Summary and Rationale

This unit will continue to explore the compositional and drawing concepts taught in the previous units, with a focus on painting media. Students will explore various painting and compositional techniques.

After studying composition and drawing from observation, students will apply that knowledge to creating dynamic still-lives, portraits, self-portraits, and landscape paintings. The materials explored in this unit will include watercolor paint and acrylic paint. Color theory and color mixing techniques will also be developed as students explore painting.

Painting techniques will include image transfer, gridding, resist, masking, layering, wet in wet blending, wet on dry, experimental watercolor techniques (salt, plastic wrap, etc.), and color mixing. Color theory concepts will include understanding how the color wheel works, color harmonies and how to use them in a composition, the relevant vocabulary, and how to mix colors, shades, tints, and tones.

Students will continue to explore art history and art criticism by studying art works that are relevant to the subject, theme, or media of the current project.

In addition to the study of composition, students will learn to respond to and connect to artwork from across the globe, time periods, and cultures. A variety of thinking routines will be utilized when looking at and responding to art works.

Through the continued development of a sketchbook, students will also be exposed to and practice using a variety of media, tools, and techniques to prepare them for deeper explorations of different themes, subjects, media, and meanings throughout this course.

- The perception, analysis, and interpretation of artistic works uniquely influence one's thoughts and feelings.
- Understanding an artist's intent helps the viewer relate their own thoughts and feelings to artistic works.

- Recognize, select, use, and care for the appropriate tools and techniques for production.
- Apply and control the medium of choice for production.
- Identify aesthetics through the exploration and evaluation of art in its historical context.
- Examine the various ways in which people communicate through art.
- Engage in critique of a piece of artwork using written and verbal communication.
- Justify the decisions made during the artwork creation process and after artwork finalization.
- Respond to artworks by peers and by artists across time/culture to develop communication and understanding.
- Examine artwork by a variety of artists from diverse racial and cultural backgrounds.
- Understand the importance of self-reflection and how it helps us improve our observation, understanding, and communication with others in our community.
- Engage in meaningful identity processes by using art to convey their personal identity.

Modifications

Special Education/IEP/504 - Modifications and accommodations must be aligned to the stated plan and uphold expectations of the plan lawfully. Every student requires a different set of accommodations based upon need. Examples specific to visual arts practice include, but are not limited to:

- Follow individual IEP/504 plans for specific modifications.
- Preferential seating
- Extended/Additional time for assessments
- Behavior management support
- Assignments/resources in electronic and physical format
- Break down assignments with oral directions, written directions, and visuals.
- Provide frequent reminders to stay on task and reinforce on-task behavior
- Work on organizational skills
- Provide visual supports
- Partnering/Grouping of students
- Re-teaching and review
- Multi-media approach to accommodate various learning styles
- Decrease/Modify number of project requirements
- Teacher/Aide/Para assistance
- Demonstrations of techniques on an individual level
- Show slide presentations to encourage exploration of project ideas

ELL - Teachers identify the modifications that they will use in the unit as related to the needs of their student population. Examples specific to visual arts practice include, but are not limited to:

- Allow the use of Google Translate where appropriate.
- Provide alternate ways for the student to respond (verbal/pictographic answers instead of written)
- Substitute a hands-on activity or use of different media in projects for a written activity
- Prepare and distribute advance notes
- Provide model sentence frames and sentence starters for both oral responses and written responses
- Provide additional time to complete assessments and assignments
- Model and use gestures to aid in understanding
- Model tasks by giving one or two examples before releasing students to work independently
- Present instructions both verbally and visually
- Simplify written and verbal instructions
- Speak clearly and naturally, and try to enunciate words, especially their ending sounds.

- Provide Visual, Graphic, Interactive, and/or Sensory Supports
- Simplify the language, format, and directions of the assessment
- Allow for alternate seating for proximity to peer helper or teacher as necessary
- When showing videos, use Closed Captioning.
- Support use of student's primary language by translating key words in directions, or key vocabulary terms or giving students opportunities to communicate in their primary language (written or orally)

Gifted and Talented/Enrichment - Utilize differentiation in the areas of acceleration, enrichment, and grouping. Examples specific to visual arts practice include, but are not limited to:

- Complex, in-depth research assignments
- Independent study where applicable
- Provide a variety of individualized work centers or student choice
- Lead demonstrations for class
- Create additional project(s) in a different medium, exploring a different technique, style, or subject.
- Individual presentation
- Multiple mediums in project

Career Readiness, Life Literacies, and Key Skills NJSLs (June 2020)

- CRP1: Act as a responsible and contributing citizen and employee
- CRP2: Apply appropriate academic and technical skills.
- CRP3: Attend to personal health and financial well-being.
- CRP4: Communicate clearly and effectively and with reason.

Unit 4

3D Design: Ceramics & Sculpture

Summary and Rationale

This unit will continue to explore the compositional concepts taught in the previous units, with a focus on three-dimensional design. Students will explore various sculpture techniques, with a focus on ceramics. Students will explore various ceramics and sculpture methods. Students will be challenged to analyze how space and mass interact and will explore how sculptors make choices to express meaning in their work.

Students will learn hand-building methods using ceramics, as well as surface decoration techniques. Pinch, coil, and slab methods will be used to create functional and decorative objects. In addition to or in lieu of ceramics, other sculptural methods can be explored, including relief, assemblage, and/or reductive sculpture. A range of materials and methods can be explored, including additive (clay, wire, etc), subtractive (foam, plaster, etc), and/or found object or assemblage.

After studying composition and the elements of art and principles of design, students will apply that knowledge to creating dynamic 3D forms and sculptures. The techniques explored in this unit will include ceramics hand-building methods (pinch, coil, slab), creating real texture on 3D forms, surface decoration, and glazing. Students will explore form and function through the creation of pinch pots, vases, rattles, and/or vessels.

Students will continue to explore art history and art criticism by studying art works that are relevant to the subject, theme, or media of the current project.

In addition to the study of composition, students will learn to respond to and connect to artwork from across the globe, time periods, and cultures. A variety of thinking routines will be utilized when looking at and responding to art works.

Through the continued development of a sketchbook, students will also be exposed to and practice using a variety of media, tools, and techniques to prepare them for deeper explorations of different themes, subjects, media, and meanings throughout this course.

<ul style="list-style-type: none"> • The elements and principles of art and design, as they are applied to the specific media or subject being studied. • The elements of line, value, form, size, shape, and color; as they refer to composition. • The principles of balance, focal point, harmony, rhythm, contrast, and movement; as they refer to composition. • The stages of clay and how to create 3D forms using various hand-building methods. • How to apply color principles, color theory, intensity, and value to ceramic sculpture using underglaze, glaze, and/or acrylic paint. • Critique as an important aspect to reflection on the art making process, content, and finished project. • Artists use sketchbooks to record ideas, practice techniques, study subjects, experiment, and respond to artwork. • With a growth mindset, failure is an important part of success. • Innovative ideas or innovation can lead to career opportunities. • One's feelings, thoughts, personal traits, strengths and challenges influence the creative process. 	<ul style="list-style-type: none"> • Use multiple approaches to begin creative endeavors. • Demonstrate an understanding of the elements and principles of art as it applies to design and the creative process. • Create works of art which demonstrate a variety of compositional techniques. • Define, discuss, and demonstrate understanding of various hand building methods. • Combine hand building methods to create a sculptural work of art. • Use various techniques to create works of art that demonstrate variation in form, space, and texture. • Apply color theory to a work of art using surface decoration and glazing techniques. • Create pottery works which demonstrate an understanding of the stages of clay and the possibilities and limitation • Evaluate, analyze, and interpret works of art from a variety of time periods and cultures, using their own thoughts and feelings. • Identify and explain the success of the elements and principles of art and design within a composition. • Define how the elements of art are used to create the principles of design.

- Refinement of artistic work is an iterative process that takes time, discipline, self-confidence, and collaboration.
- The perception, analysis, and interpretation of artistic works uniquely influence one's thoughts and feelings.
- Understanding an artist's intent helps the viewer relate their own thoughts and feelings to artistic works.
- Three dimensional design in various media helps viewers identify and understand various cultures and civilizations throughout history.
- Art can be functional, as well as aesthetically pleasing and expressive.

- Define how the principles combine to create an aesthetic placement of ideas that will produce a dynamic design.
- Recognize, select, use, and care for the appropriate tools and techniques for production.
- Apply and control the medium of choice for production.
- Identify aesthetics through the exploration and evaluation of art in its historical context.
- Examine the various ways in which people communicate through art.
- Engage in critique of a piece of artwork using written and verbal communication.
- Justify the decisions made during the artwork creation process and after artwork finalization.
- Respond to artworks by peers and by artists across time/culture to develop communication and understanding.
- Examine artwork by a variety of artists from diverse racial and cultural backgrounds.
- Understand the importance of self-reflection and how it helps us improve our observation, understanding, and communication with others in our community.
- Engage in meaningful identity processes by using art to convey their personal identity.

Modifications

Special Education/IEP/504 - Modifications and accommodations must be aligned to the stated plan and uphold expectations of the plan lawfully. Every student requires a different set of accommodations based upon need. Examples specific to visual arts practice include, but are not limited to:

- Follow individual IEP/504 plans for specific modifications.
- Preferential seating
- Extended/Additional time for assessments
- Behavior management support
- Assignments/resources in electronic and physical format
- Break down assignments with oral directions, written directions, and visuals.
- Provide frequent reminders to stay on task and reinforce on-task behavior
- Work on organizational skills
- Provide visual supports
- Partnering/Grouping of students
- Re-teaching and review
- Multi-media approach to accommodate various learning styles
- Decrease/Modify number of project requirements
- Teacher/Aide/Para assistance
- Demonstrations of techniques on an individual level
- Show slide presentations to encourage exploration of project ideas

ELL - Teachers identify the modifications that they will use in the unit as related to the needs of their student population. Examples specific to visual arts practice include, but are not limited to:

- Allow the use of Google Translate where appropriate.
- Provide alternate ways for the student to respond (verbal/pictographic answers instead of written)
- Substitute a hands-on activity or use of different media in projects for a written activity
- Prepare and distribute advance notes
- Provide model sentence frames and sentence starters for both oral responses and written responses
- Provide additional time to complete assessments and assignments
- Model and use gestures to aid in understanding
- Model tasks by giving one or two examples before releasing students to work independently
- Present instructions both verbally and visually
- Simplify written and verbal instructions

- Speak clearly and naturally, and try to enunciate words, especially their ending sounds.
- Provide Visual, Graphic, Interactive, and/or Sensory Supports
- Simplify the language, format, and directions of the assessment
- Allow for alternate seating for proximity to peer helper or teacher as necessary
- When showing videos, use Closed Captioning.
- Support use of student's primary language by translating key words in directions, or key vocabulary terms or giving students opportunities to communicate in their primary language (written or orally)

Gifted and Talented/Enrichment - Utilize differentiation in the areas of acceleration, enrichment, and grouping. Examples specific to visual arts practice include, but are not limited to:

- Complex, in-depth research assignments
- Independent study where applicable
- Provide a variety of individualized work centers or student choice
- Lead demonstrations for class
- Create additional project(s) in a different medium, exploring a different technique, style, or subject.
- Individual presentation
- Multiple mediums in project

Unit 5

Media Exploration & Portfolio Development

Summary and Rationale

This unit will continue to explore the compositional concepts taught in the previous units, with a focus on multimedia. Students will explore various art making methods and mixed media processes. Possible materials or methods may include printmaking, collage, mosaic, digital art, cyanotypes.

After studying composition and the elements of art and principles of design, students will apply that knowledge to creating various art forms inspired by a variety of methods and cultures. Students will be able to apply what they have learned about composition and design, while continuing to explore art history.

Students will continue to explore art history and art criticism by studying art works that are relevant to the subject, theme, or media of the current project.

During this unit, students will also be responsible for selecting and preparing works for display, as well as creating a portfolio of their work and reflections from the year.
